

Two Arsenal Employees Win Rewards

Dual cash award of \$17.50 each was presented two Joliet Arsenal employes recently by Capt. E. J. Burns, transportation officer at the government plant.

Receiving the awards for a useful suggestion were Walter E. Gardner, of Symerton, and Sherman Frost, Route 2, Wilmington.

Their idea was originating a device for testing speedometers which also aids in the repair of speedometers on vehicles at the arsenal, saving the cost of removing the speedometer head and sending it to outside repair facilities.

Both men are married and have two children each. Both have been employed at the arsenal since December, 1945, and are automotive mechanics working in the transportation branch.
